# P·7MC

FEATURE	BENEFIT
---------	---------

<b>TOUR-INSPIRED SHAPING</b>	Designed with direct input from Tour, P·7MC irons feature a thin topline and progressive offset for a clean look at address. A narrow sole and tight leading edge ensure consistency through the turf.
------------------------------	--

<b>MUSCLE CAVITY PERFORMANCE</b>	Every angle is meticulously scrutinized to meet the performance demands of the game's best ball strikers with perimeter weighting to provide just the right amount of forgiveness.
----------------------------------	--

<b>COMPACT GRAIN FORGING</b>	1025 carbon steel is 5X forged using a 2,000-ton press engineered to produce a tighter, more compact grain structure with fewer defects. It is designed to provide the most solid, consistent feel possible.
------------------------------	--

<b>MACHINED FACE &amp; GROOVES</b>	Precision is paramount. Machining the face ensures precision and quality with our most aggressive MX9 score line geometry for exacting shot making.
------------------------------------	---
