

Qi4D

RESCUE™

FEATURES AND BENEFITS

RESCUE™ YOUR ROUND

- Advanced multi-material construction combines 450 stainless steel and a carbon fiber crown creating the ultimate iron replacement option.
- The Qi4D Rescue™ is designed to hit desired carry yardages while maintaining a steep landing angle, providing golfers the ultimate tool to hold greens with added utility from any lie.

ADJUSTABLE PERFORMANCE

- Utilizing a single Trajectory Adjustment System (TAS) weight (8g) provides the golfer a more mass efficient way to adjust flight, spin and swingweight.
- 3° loft sleeve can be used to adjust loft, lie and face angle for optimized flight.

CG OPTIMIZATION

- Engineers achieved a balanced CG placement for optimal flight and workability by utilizing an ultralight carbon crown and strategically positioned TAS weight for more iron-like performance.

REAX™ SHAFTS

- Working closely with KBS we created a line of REAX™ shafts designed specifically to enhance hybrid performance providing maximum stability with superior feel.

TOUR PROVEN TECHNOLOGIES

- Cut-through Speed Pocket™ protects ball speed and reduces spin on low-face strikes.
- Advanced CAD modeling creates a design with a clean and powerful sound, a foundation for TaylorMade rescue performance.
- Twist Face™ features corrective face curvature designed to provide straighter shots on mishits.

CLUB	LOFT	HAND	LIE	LENGTH	SW
Qi4D RESCUE	2-17°	RH	56° - 60°	41.25"	D2
Qi4D RESCUE	3-19°	RH/LH	56.5° - 60.5°	40.75"	D2
Qi4D RESCUE	4-22°	RH/LH	57° - 61°	40.25"	D2
Qi4D RESCUE	5-25°	RH/LH	57.5° - 61.5°	39.75"	D2

CUSTOM ONLY in RED

Qi4D

MAX

RESCUE™

FEATURES AND BENEFITS

THE RESCUE™ ELEVATED

- Advanced multi-material construction creates the ultimate iron replacement option that offers high launch with maximum forgiveness.

ADJUSTABLE PERFORMANCE

- Utilizing a single Trajectory Adjustment System (TAS) weight (8g) provides the golfer a more mass efficient way to adjust flight, spin and swingweight.

CG OPTIMIZATION

- Engineers strategically positioned the TAS weight back in the Qi4D Max Rescue™ for enhanced forgiveness. This, coupled with an ultralight carbon crown and a larger head size, ensures maximum peak trajectory and stability.

REAX™ SHAFTS

- Working closely with KBS we created a line of REAX™ shafts designed specifically to enhance hybrid performance providing maximum stability with superior feel.

TOUR-PROVEN TECHNOLOGIES

- Cut-through Speed Pocket™ protects ball speed and reduces spin on low-face strikes.
- Advanced CAD modeling creates a design with a clean and powerful sound, a foundation for TaylorMade rescue performance.
- Twist Face™ features corrective face curvature designed to provide straighter shots on mishits.

Qi4D

MAX LITE

RESCUE™

FEATURES AND BENEFITS

THE RESCUE™ ELEVATED

- Advanced multi-material construction combines to create the ultimate iron replacement option that offers high launch with maximum forgiveness.
- For golfers seeking increased clubhead speed, Qi4D Max Lite Rescue is up to 18g lighter than the Qi4D Max Rescue.

ADJUSTABLE PERFORMANCE

- Utilizing a single Trajectory Adjustment System (TAS) weight (4g) provides the golfer a more mass efficient way to adjust flight, spin and swingweight.

CG OPTIMIZATION

- Engineers strategically positioned the TAS weight back in the Qi4D Max Rescue™ for enhanced forgiveness. This, coupled with an ultralight carbon crown and a larger head size ensures maximum peak trajectory and stability.

REAX™ SHAFTS

- Leveraging Mitsubishi Chemical's industry-leading material expertise and production processes enables us to offer world-class shafts suitable for a diverse range of hybrid applications.

TAYLORMADE PROVEN TECHNOLOGIES

- Cut-through Speed Pocket™ protects ball speed and reduces spin on low-face strikes.
- Advanced CAD modeling creates a clean and powerful sound, a foundation for TaylorMade rescue performance.
- Twist Face™ features corrective face curvature designed to provide straighter shots on mishits.

Qi4D MAX LITE RESCUE™

WOMENS SPEC

FEATURES AND BENEFITS

THE RESCUE™ ELEVATED

- Advanced multi-material construction creates the ultimate iron replacement option that offers high launch with maximum forgiveness.
- For golfers seeking increased clubhead speed, the ultralight spec package provides the Qi4D line's lightest head mass, shaft and grip.

ADJUSTABLE PERFORMANCE

- Utilizing a single Trajectory Adjustment System (TAS) weight (4g) provides the golfer a more mass efficient way to adjust flight, spin and swingweight.

CG OPTIMIZATION

- Engineers strategically positioned the TAS weight back in the Qi4D Max Rescue™ for enhanced forgiveness. This, coupled with an ultralight carbon crown and a larger head size ensures maximum peak trajectory and stability.

REAX™ SHAFTS

- Leveraging Mitsubishi Chemical's industry-leading material expertise and production processes enables us to offer world-class shafts suitable for a diverse range of hybrid applications.

TAYLORMADE PROVEN TECHNOLOGIES
